Own Your Own Finance Company

Upon graduating the Global Financial Training Program, students will own their own finance company and be a commercial loan broker. Within a week after training, students will be in the unique position to offer loans from \$5,000 to \$500 million+ to businesses and commercial real estate investors with A, B, C and D credits—while earning up to 15% commissions. Because we aren't a franchise, there are no royalties or ongoing fees post-training. Additionally, this business can be started at home or in the office with very little overhead.

Who can start the business?

Anyone! Our graduates come from a variety of backgrounds and education levels—from housewives to bankers, and everyone in between.

Types of Transactions Students Can Provide

With Global, there are over 30 core types of loans you can arrange—guaranteed to cover anything a business owner or real estate investor would need.
