

# Change Your Life & Own Your Own Finance Company

## Why Global Financial Training Program?

Upon graduating the GFTP, you will own your own finance company and be a commercial loan broker! Within a week after training, you'll be in the unique position to offer loans from \$5,000 to \$500 million+ to businesses and real estate investors with A, B, C and D credits—while earning up to 15% commissions. Today, banks are turning down 80-90% of loan applicants and only accepting A+ credits. You will be able to approve 40-60% of those turn downs.

Because we aren't a franchise, there are no royalties or ongoing fees post-training. Additionally, this business can be started at home or in office with very little overhead. Anyone can start this business! Our graduates come from a variety of backgrounds and education levels—from housewives to bankers, and everyone in between.

Everything you need to be able to earn a six-figure income and own your own commercial finance company is included in the cost of \$19,950.
